2. REASONS FOR ADOPTING THE PLAN

2.1 Goals pursued through the assignments made under the Plans

The Plan, in line with the Circular and applicable regulations, as well as the best practices (including the principles and recommendations of the Corporate Governance Code), intends to pursue the objective of increasing the value of Banca Generali Shares meanwhile aligning, the economic interest of its Beneficiaries to those of all the stakeholders.

The Plan has the following objectives:

- a) to determine a connection with the component of variable remuneration linked to the medium-long term objectives and the value creation for the shareholder, taking into account the Banking Group's sustainability and the results actually achieved;
- b) to develop the culture of performance in accordance with the Group's philosophy;
- c) to contribute to the creation of a balanced mix between fixed and variable elements of the Beneficiaries' remuneration;
- d) to obtain the management's loyalty at Banking Group's level.

In particular, the Plan aims to reinforce the link between the remuneration of Beneficiaries and the performance of the Bank and the Banking Group.

To achieve these objectives, it was decided to:

- a) pay a component of the variable remuneration in the form of Shares and only at the achievement of specific Objectives;
- b) link the incentive to the Share value resulting from the average price of the Shares in the three months prior to approval, by the Board of Directors, of the draft financial statements and the consolidated financial statements for the previous financial year (based on the mechanism described more in detail under point 2.3);
- c) define a three years' time vesting period;
- d) provide for specific malus and claw-back clauses.

2.2 Key variables, including performance indicators, taken into consideration in making assignments pursuant to incentive plans based on financial instruments

The Plan provides that the number of Shares actually assigned be directly linked to the achievement of

the Objectives identified by the Board of Directors, using performance and sustainability parameters that are objectively measurable and consistent with Banca Generali's and/or the Banca Generali Group's business priorities and strategy.

In particular, the Objectives are linked to three objectively measurable parameters, such as:

- a) tangible Return On Equity (tROE), which links net profit with adjusted net equity;
- b) Adjusted Economic Value Added, which expresses value creation by adjusting recurring net profit for cost of capital; and
- c) sustainability indicator consisting of (i) ESG AUM, i.e., the indicator that measures the ratio of managed assets to the AUM invested in (a) financial and insurance products/services as per Article 8 or 9 of Regulation (EU) 2019/2088, qualifying as "eligible" according to the MIFID-ESG approach and (b) funds which, though not qualifying within discretionary mandates or insurance policies as per Article 8 or 9 of Regulation (EU) 2019/2088, in any case qualify as per Article 8 or 9 of Regulation (EU) 2019/2088 with a >3 MIFID-ESG score; (ii) the average Rating, indicating the average of at least three Banca Generali's ESG ratings and relating to 5 merit/rating classes.

For further information on these indicators, reference should be made to the Remuneration Policy for 2024.

At the end of the Plan's three-year period (2024-2026), the Shares will be assigned to the Beneficiaries (according to the provisions set forth in the following points 2.3, 4.6 and 4.8).

2.3. Elements underlying the determination of remuneration based on financial instruments, or otherwise, criteria for determining the same

The Beneficiaries and the number of Shares that may be assigned to each of them are determined by the Board of Directors at its sole discretion, in compliance with the Circular and the applicable regulations.

Without prejudice to compliance with the Circular and applicable regulations, the maximum number of Shares that can be assigned at the end of the Plan's three-year period (2024-2026) is calculated by dividing the percentage of the annual recurrent gross remuneration of Beneficiaries variable between 87.5% and 100% (based on the role held) and the value of the Share, calculated as the average of three months prior to the approval by the Board of Directors of the draft financial statements and consolidated financial statements of the year before the beginning of the Plan's three year period. The number of Shares may be reduced to a minimum level (which is also calculated as a percentage of the recurring annual gross remuneration of the Beneficiaries), below which no Share shall be assigned.

In keeping with market practice and investors' expectations, the Shares are to be allocated and vest for the Beneficiaries over a total period of seven years, including also the deferral and retention period. The number of Shares to be allocated is directly linked to the level of achievement of the Objectives. In detail, at the end of the three-year period commencing on the date of the launch of the Plan, a final assessment is conducted as to the effective achievement of the established Objectives.

In addition, the allocation of the Shares is contingent on achieving the Banking Group's Gates.

The Shares actually accrued will be allocated according to appropriate criteria established by the Bank in its Remuneration Policy, which currently provides for the following scheme:

- a) at the end of the three-year performance period, allocation of 50% of the Shares accrued on the basis of the results achieved, subject to a lock-up period of 1 (one) year ⁽¹⁾;
- b) the remaining 50% of the Shares accrued will be subject to an additional 2 (two) years' deferral, during which the portion accrued may be reduced to zero if the Banking Group's Gates set in the Plan are not reached, or if a malus event occurs, and provided that the Relationship with the Banking Group continues as at that date; any Shares allocated will be subject to a lock-up period of 1 (one)

⁽¹⁾ The Beneficiary may nonetheless alienate only a number of shares equivalent in value to the amount of tax charges borne by the Beneficiary in respect of the assignment.

year⁽²⁾.

In addition, malus and clawback clauses will be applied in the specific cases provided for by the Remuneration Policy.

Moreover, the Bank has the right to grant also to individual Beneficiaries in place of — full or partial — the assignment of Shares, a Cash Settlement (without prejudice to the other relevant terms and conditions applicable for the Plan and the provisions set forth by the Circular), on the basis of a resolution that the Board of Directors (or the delegated body in charge) may take at its sole discretion.

The Bank will request, by means of specific agreements included in the contractual documents that govern the Plan, that Beneficiaries do not use personal or insurance coverage strategies (hedging) that may alter or affect the risk alignment effects implicit in the Plan.

This is without prejudice to the fact that even if the Objectives are met, Banca Generali shall not assign the Shares to the Beneficiaries if the Banking Group's Gates are not satisfied.

2.4 Reasons for making assignments under compensation plans based on financial instruments issued by parties other than the Issuer, such as parent companies or subsidiaries of the latter, or even entities that do not belong to the same corporate group as the Issuer; in the case where the aforesaid financial instruments are not traded on regulated markets, information regarding the criteria used to determine the book value of the same

Not applicable. The Plan does not contemplate the use of the financial instruments in question.

2.5 Assessments regarding significant tax and accounting implications that informed the definition of the Plan

Not applicable. The Plan is not designed in consideration of any significant tax and/or accounting implications.

2.6 Support for the Plan, if any, from the special fund for incentivising workers' participation in enterprises, mentioned in Article 4, paragraph 112 of Law No. 350 of 24 December 2003

Not applicable. The Plan receives no support from the special fund for encouraging workers to participate in enterprises, mentioned in Article 4, paragraph 112 of Law No. 350 of 24 December 2003.

3. SHARE ASSIGNMENT APPROVAL PROCEDURE AND TIMING

3.1 Scope of the powers and functions delegated by the Shareholders' Meeting to the Board of Directors for the purpose of implementing the plan

The Shareholders' Meeting is called to approve the Plan that provides for the free assignment of Shares to the Beneficiaries by the Board of Directors.

The maximum number of Shares that can be assigned under the Plan is 140,000.

The Shares pertaining to the Plan will be taken from the treasury Shares' supply possibly bought back by the Bank in execution of the Shareholders' authorisations pursuant to Articles 2357 and 2357-ter of the Civil Code.

For this purpose, the Shareholders' Meeting convened to approve the Plan will be invited to approve an authorisation for the purchase and disposal of treasury shares pursuant to Articles 2357 and 2357-ter of the Civil Code.

3.2 The persons and parties in charge of managing the Plan, and the functions and powers thereof

Within the limits of applicable laws and regulations, the Board of Directors may delegate its powers to the Chief Executive Officer or to another Director/other Directors, with the support of the Human Resources Department, and/or grant specific powers to perform one or more of the activities relating to

⁽²⁾ The Beneficiary may nonetheless alienate only a number of shares equivalent in value to the amount of tax charges borne by the Beneficiary in respect of the assignment.

the management of the Plan.

3.3 Procedures, if any, for revising the Plan, especially in light of changes in the underlying targets

In the first year of the Plan, the Board of Directors defines and establishes the Objectives, which are constantly kept consistent with the long-term objectives and strategies adopted by the Bank and the Banking Group.

It should be noted that the Board of Directors can amend and integrate the Plan's structure, the Plan's Rules subsequently issued and/or the Participation Forms, autonomously and without any further approval by the Shareholders' Meeting, all in accordance with the Remuneration Policy (as temporarily exempted pursuant to Article 123-*ter* of TUF, if applied). In addition to any specific amendments and adjustments expressly provided for by this document or in any event allowed by law as described here under, these amendments and integrations (including also the early assignment of Shares or the elimination or modification of any restriction) are those deemed necessary or appropriate as a consequence of extraordinary factors that may affect the Shares, Banca Generali, the Banking Group, the Generali Group, the Plan and/or the Objectives (including, by way of example and without limitation, extraordinary transactions regarding Banca Generali and/or the Banking Group and/or the Generali Group, capital transactions, regulatory changes or changes to the remuneration policies, provisions or recommendations of supervisory authorities, changes to the scope of the Banking Group and/or the Generali Group, takeover bids or public tender offer of exchange, changes in control, compliance with specific industry regulations or international regulations applicable to each individual Banking Group company, relevant changes to the macroeconomic conditions, changes to the international monetary policy, or changes to long-term strategic plans), in order to maintain unchanged (where possible) — on a discretionary basis and in any event to the extent permitted by applicable law in force from time to time and in compliance with the Remuneration Policy— the Plan's substantive and financial aspects.

The Board of Directors may also bring the Plan provisions, where necessary and/or appropriate, into line with applicable Italian and international regulations, should one or more Plan clauses be incompatible with and /or contrary to them.

In addition, in the event of high market discontinuity (e.g., due to relevant changes to the macroeconomic conditions or a worsening of the financial context), the Board of Directors — within the remuneration governance processes and in any event to the extent permitted by applicable law in force from time to time and in compliance with the Remuneration Policy — may review the overall consistency and propriety of the incentive systems, including the Plan, through the implementation of the necessary correction measures, including and with particular reference to the relevant measurement metrics and modalities, in that they are instrumental to maintaining unchanged (where possible) — to the extent permitted by applicable law in force from time to time and without prejudice to the general principles of the Remuneration Policy — the Plan's essential substantive and financial aspects, preserving the related main incentive purposes (so-called "Clause on Adverse Changes to Conditions").

3.4 Description of the procedures for determining the availability and assignment of the financial instruments underlying the plans

The proposal for the Shareholders' Meeting concerning the adoption of the Plan was approved by the Board of Directors during the meeting of 5 March 2024.

The draft 2023 Financial Statements was approved by the Board of Directors during its meeting of 5 March 2024 and will be submitted for the approval of the ordinary General Shareholders' Meeting convened on 18 April 2024 (first call) and, if need be, on 19 April 2024 (second call), also called to approve the Plan.

The Shareholders' Meeting that approves the Plan will not be aware of the consolidated results of the first quarter of the current year, since they will not be available at the scheduled date of the meeting.

Decisions concerning the timing of assignment of the Shares will be taken by the Board of Directors with the non-binding prior opinion of the Remuneration Committee.

Shares will not be assigned immediately, but only when the performance Objectives have been achieved and within the terms and in the manner described in point 2.3 above. In addition to the foregoing, the potential Beneficiaries shall comply with the provisions governing the abuse of inside information or market manipulation laid down in Regulation (EU) No. 596/2014 and the provisions set forth in the Bank's "*Code for Handling Relevant and Inside Information*", to which reference is made.

4. FEATURES OF THE INSTRUMENTS ASSIGNED

4.1 Description of how the share-based remuneration plans are structured; specify, for instance, whether or not the plan is based on the assignment of: restricted stock; phantom stock; option grants; stock options or stock appreciation rights

The Beneficiaries of the Plan are entitled to Shares in the form of restricted stock.

4.2 Specification of the period of actual implementation of the Plan, with an indication of any other cycles that might be contemplated

The Plan is implemented at its Date of Approval.

The Plan has a three-year performance period (2024-2026) and an additional deferral period for the assignment of the Shares. In addition, the Plan also envisages a restriction period on the Shares assigned, as described in this Information Document (see in particular point 4.6 below).

4.3 Term of the plan

The effective period of the Plan shall run from the Date of Approval until the end of the Plan's deferral period.

4.4 The maximum number of financial instruments, including in the form of options, assigned during each tax year, to the persons specified by name or falling within the specified categories

The maximum number of Shares that may be assigned to the Beneficiaries of the Plan is 140,000.

The number of Shares that can be assigned to each Beneficiary is determined by the Board of Directors.

The actual number of Shares to be assigned to each Beneficiary will depend on the level of achievement of the Objectives.

The Shares' assignment will take place only at the end of the Plan's three-year period (2024-2026), i.e., at the end of the additional deferral period.

Information on the Shares assigned during the implementation of the Plan shall be provided pursuant to Article 84-*bis*, paragraph 5(a), of the Issuers' Regulation.

Information on these matters is provided in points 2.2 and 2.3 above.

4.6 Indication of any retention period for instruments assigned or financial instruments resulting from the exercise of options, with particular regard to the period within which subsequent transfers to the company or third parties are permitted or restricted

The Shares assigned to the Beneficiaries will be subject to a one-year lock-up commencing on the date of assignment ⁽³⁾.

⁽³⁾ The Beneficiary may nonetheless alienate only a number of Shares equivalent in value to the amount of tax charges borne by the Beneficiary in respect of the assignment.

This is without prejudice to a different determination of the Board of Directors that is more favourable for Beneficiaries and the provisions set forth in the Circular and applicable regulations.

The lock-up period will begin on the date on which the Shares are registered on the current account in the name of the Beneficiaries at the Plan Administrator.

After the expiry date of the periods in which shares are locked up, as described above, further lock-up periods may be applied to Shares (pursuant to subsequent resolutions by the Board of Directors), in compliance with the principles and recommendations of the Corporate Governance Code.

These Shares shall not be transferred to third-parties – and therefore may not be sold, assigned, exchanged, carried forward, or otherwise be transferred to any living person – until the end of the above-mentioned time periods, unless authorised by the Board of Directors, which may also order the Shares to remain in custody.

In the event of termination of the Professional Relationship, the Board of Directors may redefine, without prejudice to compliance with the Circular and the applicable regulations, the terms and conditions of all of the above-mentioned lock-up periods, possibly also considering the overall remuneration of the interested Beneficiary, or also by referring to Shares granted in execution of other incentive plans.

4.7 Description of any and all conditions pertaining to the assignment of the options in the event the recipients effect hedging transactions aimed at circumventing restrictions imposed on the transferability of the assigned financial instruments, including in the form of options, or of the financial instruments subject to subscription pursuant to the exercise of the said options

In the event of violation of the ban on hedging (as per point 2.3 above) by a Beneficiary, the Board of Directors will evaluate the adoption of the measures deemed most appropriate, including forfeiture of the Beneficiary's entitlement to receive the Shares.

4.8 Description of the effects arising from termination of the work relationship

Termination of the Professional Relationship before Banca Generali has received the Participation Form from the potential Beneficiary duly signed for acceptance or before the expiry of the Plan's three-year period (2024-2026) shall entail the potential Beneficiaries' forfeiture of entitlement to receive the Shares upon the occurrence of the conditions described above.

In the event that the pension requirements are fully met or in case of death or disability with the right to receive a disability pension which entails the termination of the Professional Relationship, and if such events occur after the first year of the Plan's three-year period, the Beneficiaries, or the respective heirs in the event of death, may retain the right to receive the Shares, under the terms and conditions described above, proportionately to the duration of the Professional Relationship with respect to the duration of the Plan's three-year period.

In all cases of termination of the Professional Relationship other than those described above, the potential Beneficiaries shall lose their entitlement, as well as the future chance to receive Shares upon the fulfilment of the conditions described above.

As a partial departure from the foregoing, if the Professional Relationship has a defined term and an expiry period prior to the expiry of the Plan's three-year period, the Beneficiaries for whom the expiry of the Professional Relationship occurs after the first year of the Plan's three-year period shall retain the right to receive Shares, in accordance with the terms and conditions described above, proportionately to the duration of the Professional Relationship with respect to the duration of the Plan's three-year period.

If a Banking Group's company ceases to be part thereof, the Professional Relationship shall be considered as terminated for the purposes of the Plan on the date on which such event occurs. However, Beneficiaries for whom such event occurs after the first year of the Plan's three-year period maintain the right to receive the Shares, in accordance with the terms and conditions described above, proportionately to the duration of their company's membership of the Banking Group with regard to the duration of the Plan's three-year period.

Finally, if the Professional Relationship with Banca Generali or a Banking Group's company is transferred to another company of the Banking Group or Generali Group and/or in the case of

termination of the Professional Relationship and concurrent creation of a new Professional Relationship within the Banking Group, the Beneficiary will retain, *mutatis mutandis*, the rights provided for under the Plan and in accordance with the Participation Form.

In the event of termination of the Professional Relationship after the end of the three-year performance period, but before the end of the additional deferral period, Beneficiaries:

- a) shall retain their right to keep the Shares already awarded, even if still subject to lock-up restrictions;
- b) shall forfeit the right to receive the Shares not yet awarded, except for specific cases of termination of Professional Relationship, such as death, permanent disability, retirement, dismissal by the company for objective/organisational reasons, consensual termination and/or other contractually predetermined cases.

The Board of Directors may amend the aforementioned terms, without prejudice to compliance with the Circular and the applicable regulations and in a way that is more favourable for the Beneficiaries, possibly also considering the overall remuneration of the Beneficiary concerned or also with reference to Shares granted in execution of other incentive plans.

4.9 Other possible reasons for which the plan may be cancelled

No other reasons for which the Plan may be cancelled are envisaged.

4.12 The company’s expected liability exposure as at the date of the assignment in question, as estimated in light of the already established terms and conditions, providing a breakdown of the overall liability exposure in question by type of security covered under the Plan

The Plan expense is equal to the sum of the real cost of each of the Plan’s three-year period (2024-2026), calculated as the fair value of the entitlement to receive Shares (calculated as at the grant date) multiplied by the estimated number of rights to be granted at the end of the Plan’s three-year period.

The cost will be distributed on a pro-rated basis over the vesting period as a cross-entry to the appropriate equity reserve. The cost will be updated at the end of each year if the number of rights that it is estimated will be attributed at the end of the three-year period has changed.

4.13 Description of any dilutive impact the compensation plans may exert on the Share capital

Not applicable.

4.18 Procedures (American/European), deadlines (for instance, exercise periods), and exercise clauses (such as knock-in and knock-out clauses)

Not applicable.

4.19 Strike price of the option or methods and criteria for determining the strike price, with particular regard to: a) the formula for calculating the strike price on the basis of a given market price (fair market value); and b) the methods for determining the market price of reference for determining the strike price

Not applicable.

4.20 If the strike price departs from the fair market value determined pursuant to the procedures set forth in point 4.19.b above (fair market value), the reasons for such departure

Not applicable.

4.21 Grounds for applying different strike prices to various Beneficiaries or categories of Beneficiaries

Not applicable.

4.22 If the financial instruments underlying the options cannot be traded on regulated markets, indication of the value attributable to the underlying financial instruments or of the criteria for determining the same

Not applicable.

4.23 Criteria for carrying out the adjustments required in light of extraordinary capital and other transactions entailing changes in the number of the underlying securities (capital increases, extraordinary dividend distributions, splits and reverse-splits of the underlying Shares, mergers and de-mergers, transactions entailing changes in the Share category of the underlying Shares, etc.)
