In particular, as regard managed products, the **Luxembourg-based SICAV LUX IM** continued to grow (€105 million in May; €946 million YTD) and insurance solutions inflows increased, as they have always been a point of reference for clients at times of market uncertainty (€121 million in May; €284 million YTD). In detail, **insurance wrappers (BG Stile Libero and LUX Protection Life)** continued to prevail with €275 million net inflows YTD.

May also saw a sharp growth in AUC solutions, including securitisations and certificates (€73 million in May; €470 million YTD). **Assets under Advisory (BGPA)** also grew to **€4.9 billion**, up by nearly €100 million in the month.

Chief Executive Officer and General Manager Gian Maria Mossa stated: *"May was another very solid month, with a net inflow mix that emphasises the strength of our offer in terms of diversification and customisation. Our wide range of products and services, including SICAVs, insurance and AUC solutions, with our advanced advisory service as our key strength, enable us to best meet our clients' different needs. Our risk analysis expertise and our innovation ability in developing solutions increasingly decorrelated from the markets, such as securitisations in support of SMEs and the real economy, are distinctive elements appreciated by both households and experienced professionals and that we intend to develop further to continue on our sustainable growth process. Despite the uncertainties of the current economic scenario, our positioning and the demand we are recording lead us to look to the coming months with confidence."*
