

**PRESS
RELEASE**

Total net inflows at €710 million in February (€1.2 billion YTD)

Net inflows of Assets under Investment at €322 million (€384 million YTD)

Milan, 9 March 2026 – Banca Generali's **net inflows** amounted to **€710 million** in February, bringing **total YTD net inflows to €1.2 billion**.

The net inflows quality was positive, as highlighted by the net increase in **Assets under Investment (AUI)**, compared to January, to €322 million in February (€384 million YTD). **Financial wrappers** accounted for over half of net inflows (€165 million in February), as they continue to be appreciated by private clients for their level of personalisation, diversification and service. The new lines of **in-house funds** grew further (€79 million in February), accounting for nearly 90% of total net inflows of funds YTD (€177 million out of a total €199 million).

Demand for **AUC & Banking under Advisory** rose steadily to €32 million in February (€46 million YTD).

Net inflows from **Assets under Custody** grew sharply to €374 million (€545 million YTD), also thanks to the proactive offering of products aimed at portfolio diversification.

Chief Executive Officer and General Manager Gian Maria Mossa stated: *"It was a very solid month, which saw a robust activity of the existing structure and the integration of excellent profiles. The quality of net inflows is constantly improving, also thanks to the new financial protection initiatives, which are particularly suited to market volatility and to the geopolitical concerns from conflict escalation. Moreover, we are very satisfied with the progress of the Intermonte integration project, marked by a growing number of meetings with entrepreneurs and a significant acceleration in structured product solutions. In February, the pilot phase of the Insurbanking project with Alleanza was completed, and we started to roll out the banking products to the rest of their network. The strength of our Financial Advisors and the significant projects underway make us look to the opportunities for the coming months with confidence."*
